

Recipe:	Best-ever black gold compost	Prep time: 1 min a day
Servings:	Continuous delightful nutrient dense compost	Total Time: 8-12 weeks
Ingredients:	Greens (Nitrogen)	Browns (Carbon)
	Egg shells	Paper towel
	Grass clippings	Paper and Cardboard (without waxy surfaces)
	Fruit (not citrus), peels and cores*	Ash
	Vegetables and peels*	Dry leaves
	Coffee grounds	Woodchips
	Tea bags and leaves (remove staples)	Straw
	Bread and Pasta	Egg carton (without the labels)
	*hard skin and pips will take longer to decompose	Toilet paper and Newspaper
Directions:	Add your greens and browns at a 30:70 ratio. Chop/shred items. The browns will absorb the excess moisture out of the greens, so add more brown as you go if it is too wet looking. Empty your caddy into your compost tumbler and turn it every second day. Water as needed if too dry.
